Maaz Masood

Pursuing Master of Science in Artificial Intelligence and Business
Analytics at University of South Florida | Actively Seeking for
Summer internships.
Tampa, Florida, United States

Summary

Logical and organised individual with a strong foundation in
software engineering. Proficient in Python, C++, PHP and basic
knowledge of Java. Seeking to raise coding KPIs by providing
error-free codes. Ability to translate business requirements into
innovative software solutions. Excellent teamwork, interpersonal and
communication skills. I Have done some basic projects using python
programming.Looking to start a career as an entry-level professional
with a reputed IT company.

Experience

University of South Florida
Graduate Teaching Assistant
August 2025 - Present (7 months)
Tampa, Florida, United States

Assist in teaching and supporting ISM 2411: Introduction to Python for
Business under the mentorship of Dr. Markum Reed.
Guide students in learning the fundamentals of Python and its applications to
solve real-world business problems.
Facilitate coursework, labs, and academic activities, fostering an engaging and
supportive learning environment.
Strengthen my own expertise in Python, data analytics, and teaching while
contributing to the academic community at USF.
